

Pallet Drop Zone Gate & Impact Gate

Pallet Drop Zone Gate

Ladder Industries' Pallet Drop Zone Gate is an ideal solution to provide a safety gate on rack modules, mezzanines platforms, or other elevated structures. It is a corral type gate but only takes up minimal space from the perimeter. Call today for details!

4-Panel Impact Gate

- Heavy-duty construction
- Easily adjustable height with multi-hole mounting plates
- Mounts directly to rack or mezzanine platform railing
- Spring-loaded, self-closing
- Closed upper gates provide fall protection when a short pallet is in place
- Hinge located on front upright provides maximum clear open width
