

# JiffyStair™

## OSHA Series

### Prefabricated Industrial Stairway

The OSHA Series stairway is designed to conform to the Federal OSHA & Cal-OSHA requirements for fixed industrial stairway applications. The 10" deep treads have an adjustable rise between 7-1/4" and 8" with an angle to climb between 37° and 42°. Custom tread widths are available.

All units shipped knocked-down. Check local code requirements before ordering.

Standard step treads are made of formed diamondplate. Safety grating treads are available on request.

See JiffyTower specification sheet for matching tower dimensions.
